**1-800-464-4000** (TTY **711**), 24 hours a day, 7 days a week (closed holidays)

### Quality care with you at the center

Our physician-led care teams work together to keep you healthy by delivering high-quality, personalized care.

# Great care from great doctors

Our doctors come from top medical schools, and many of them teach at world-renowned universities. No matter which personal doctor you choose, you'll be in highly skilled, experienced hands - and your health is their main concern.

As your biggest health advocate, your doctor will coordinate your care journey, and you'll work closely together to make decisions about your health.

# Better care with a connected team

Your doctor, nurses, and other specialists all work together to keep you healthy. They're connected to each other, and to you, through your electronic health record. So they know important things about you and your health like when you're due for a screening and what medications you're taking. That way, you get personalized care that's right for you.

### Personalized care

Care at Kaiser Permanente isn't one-size-fits-all. We believe your story, background, and values are as important as your health history. To help deliver care that's sensitive to your culture, ethnicity, and lifestyle, we:

- Strive to hire doctors and staff who speak more than one language
- Offer telephone interpretation services in more than 150 languages
- Train our care teams on how to connect with and care for people of diverse backgrounds

Through our culturally responsive care programs, we've improved health outcomes among diverse populations for conditions like high blood pressure, diabetes, and colon cancer.<sup>1</sup>

### Great care, great results

From preventive screenings that keep you healthy to world-class care if you get sick, we've got you covered.

# Preventive care to keep you healthy

Preventive care is key to how we practice medicine. It can help you avoid some health issues and catch others before they become serious.

Your electronic health record plays a vital role. It tracks your preventive care services and sends reminders when you're due for your next screening. We'll let you know when to come in so you're free to focus on living your life.

# Specialty care when you need it

We're also here for you if you get sick or need specialty care. With one of the largest multispecialty medical groups in the country, we can conveniently connect you with the right specialist. And you don't need referrals for certain specialties, like obstetrics-gynecology, psychiatry, and drug dependency services.

From high-quality maternity care to treatment for cancer, heart problems, and more, you get great doctors, the latest technology, and evidence-based care – all combined to help you recover quickly.

# Support for ongoing conditions

If you have a condition like diabetes or heart disease, you're automatically enrolled in a disease management program for personal coaching and support. With a well-rounded approach backed by proven best practices and advanced technology, we'll help you get the care you need to continue living life to the fullest.

# A leader in clinical quality

In 2018, Kaiser Permanente led the nation as the top performer in 30 effectiveness-of-care measures – the most of any health plan.<sup>2</sup> These measures include:

- Prevention and screening
- Cardiovascular care
- Comprehensive diabetes care
- Medication monitoring

<sup>7</sup>An urgent care need is one that requires prompt medical attention, usually within 24 or 48 hours, but is not an emergency medical condition. This can include minor injuries, backaches, earaches, sore throats, coughs, upper-respiratory symptoms, and frequent urination or a burning sensation when urinating.

<sup>8</sup>If you reasonably believe you have an emergency medical condition, call 911 or go to the nearest emergency department. An emergency medical condition is a medical or psychiatric condition that requires immediate medical attention to prevent serious jeopardy to your health. For the complete definition of an emergency medical condition, please refer to your *Evidence of Coverage* or other coverage documents.
